

The Gaelic Games Pathway & what it means for our club

There is a lot of science and research behind the Player Pathway and you can read as much or as little of that at your leisure. The key takeaway from our club, County and national Pathways for coaches, players and parents/guardians is a clear understanding of how children progress and what might be expected of each age group.

This understanding can assist coaches in planning programmes and parents in supporting children and young people at home. Importantly it also provides a framework for our young people to interact with and it challenges us as a club to provide the necessary support to make this all happen.
